6. CREDIT TERMS AND CONDITIONS

- **Payment terms.** Approved accounts are net 30 days from the invoice date unless otherwise agreed in writing.
- **Deposits.** Approved credit does not replace deposits. Micro Paradox may still require a deposit to confirm an order, including for rootstock and built-to-order production, as set out in its Commercial Terms.
- **Late payment charges.** After a grace period of 10 business days past the due date, each overdue invoice accrues a late payment charge at the annual rate in Micro Paradox's Fee Schedule (currently 20% per year), prorated daily, up to the maximum allowed by law. Late charges are billed as separate invoices and do not themselves accrue late charges.
- **Credit limit.** The credit limit granted is subject to periodic review and may be increased, reduced, or revoked at the sole discretion of Micro Paradox, Inc. without prior notice.
- **Termination of credit terms.** Micro Paradox, Inc. may terminate credit terms, withhold shipments, and demand payment in full of any outstanding balance at any time.
- **Collection costs.** The applicant agrees to pay all costs of collection, including reasonable attorney fees and court costs, in the event of default on payment.
- **Changes in business status.** The applicant agrees to notify Micro Paradox, Inc. promptly of any change in ownership, business structure, or financial condition that may affect its ability to pay.
- **Authorization for credit investigation.** The applicant authorizes Micro Paradox, Inc. to obtain credit information from the banks and trade references listed and from credit reporting agencies, and authorizes them to release that information.
- **Commercial Terms.** All orders are subject to Micro Paradox's Commercial Terms and Fee Schedule in effect when each order is confirmed.
- **Governing law.** This agreement is governed by and construed in accordance with the laws of the State of California.

By signing below, the applicant agrees to these terms and certifies that the information in this application is true and correct.
